A sailing will meet the requirement if the vessel's bars and restaurant areas are open for the hours advertised and are able to serve the full range of advertised food and drink during the opening hours.

A sailing which does not meet the performance measure because the vessel's master determines for operational or safety reasons that the bar, restaurant and lounge areas should be closed or the full range of food and drink should not be served and which does not arise through an act or omission of the operator or its sub-contractors, shall be deemed to have met the performance measure. If the vessel's master orders a closure for operational or safety reasons, a written report should be submitted to the Senior Manager Vessel Support Services outlining the reasons for the closure and the action taken to minimise the length of the closure.
